Degree Course in Medicine & Surgery in English Language

NOTES

AFPs start at 3 p.m. in presence, and are in addition to formal class lectures.

Contact Teachers ahead of time to confirm dates and locations. Bring with you a white gown and, if possible, a personal stethoscope.

The Practical Activity Exam (Clinical Skills Evaluation) will be done with Prof. E. Durante Mangoni and other Teachers at the Monaldi hospital.

There will be sessions in February, May, June, July, September, November and December; additional sessions can be scheduled on exceptional circumstances on request.

The Evaluation may be attempted only after the Methods in Medicine and Surgery exam has been successfully passed.

Upon Evaluation, students will have to show ability to independently perform the basic maneuvers of clinical exam, including (but not limited to):

Blood pressure measurement; General clinical exam, gait, decubitus; Clinical history taking (presenting condition) only for those who are able to speak in Italian; Recognition of major skin conditions, discolorations; Basics of heart, chest, abdomen, neck, arterial pulses, joint, lymph node exam; Basics of labs interpretation.
