Medicine and Surgery course in English
PROPOSAL FOR ELECTIVE DIDACTIV ACTIVITIES (ADE)
(please send to gianpaolo.papaccio@unicampania.it)

TITLE	Endometriosis: new concepts in pathogenesis, diagnosis and therapy			
TEACHER	Prof. Alfonso Baldi, Associate professor of Anatomic Pathology and Scientific coordinator of "Fondazione Italiana Endometriosi"			
SPECIFIC OBJECTIVES (max 500 characters)	To show to the students of the English Medical Course an updated review about the new concepts about endometriosis pathogenesis and progression, as well as recent findings about the diagnosis and therapy of this disease. Endometriosis is still largely underestimated and ignored despite having a big impact on the quality of life of a very large number of women. Many of the data presented are the result of the scientific activity of the Italian Endometriosis Foundation			
	ACTIVITY TYPE	CHECK	HOURS	CFU
	interactive seminar with international scientists	x	Up to 3	1
YEAR PERIOD	27 June 2019
